PRODUCT DIMENSIONS

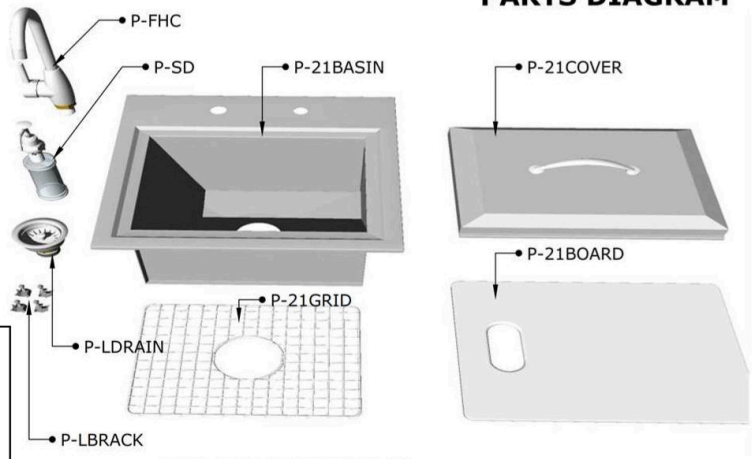

Product Dimensions are rounded to the nearest whole number.

CUT-OUT DIMENSIONS

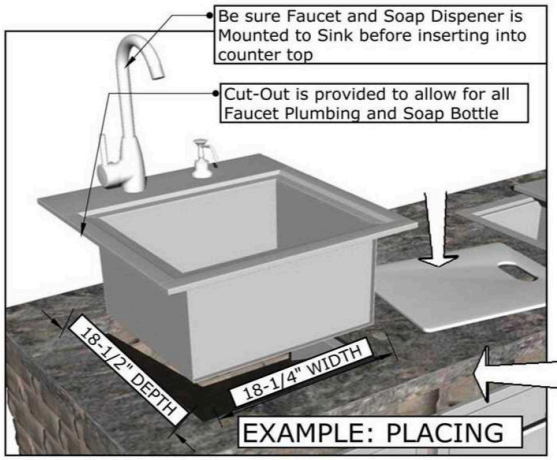

Hot/Cold Faucet Comes with Two water lines, both are 3/4" Hose Size with 3/4" Compression Female Flare Adapters

PARTS DIAGRAM

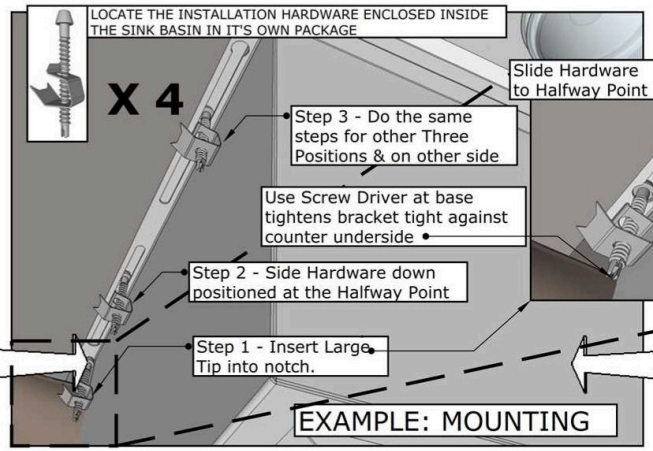

PLACING:

The Premium Sin is "Self-Rimming", meaning that whatever the Cut-Out edge looks like, as it is always rough, the product rim will cover all edges. Make the Cut-Out in counter surface matching to our provided dimensions shown, and simply insert Sink in through the open hole. It will Free-Hang so do not build any support below it, all other mounting brackets are included.

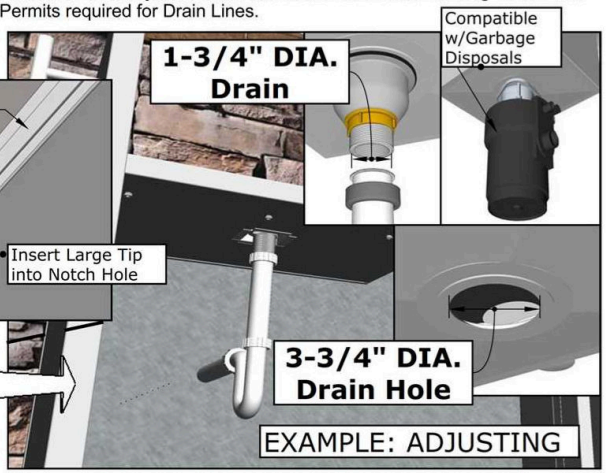

MOUNTING:

For this step - you will need to locate the "Sliders" on the underside Left & Right Rim of the Sink. Locate the included Hardware inside the Sink Basin, push the Larger Head End into the larger Rounded Opening at each end of the Sliders and push it in then Slide it down until it reaches the Half Way Point. Use a Screw Driver to tighten the bracket in against the underside of the counter, you may need to grip it in other hand to gain stability.

ADJUSTING:

Access Doors should be installed below Sink for ease of access, this is also where you can install plumbing drain. The Sink Drain Width is 1-3/4" Inches Diameter and will fasten in to most drain assemblies. Depending on the Island Construction and or Local Building Code requirements, drains can be installed with complete P-Trap setup, or even using a simple Flex-Hose to side yard. Please check with own Local Building Codes and Permits required for Drain Lines.

SPECIFICATIONS

Product: 20-3/4" W x 21" D x 12" H (with cover)
Cut-out: 18-1/4" W x 18-1/2" D x 9-1/2" H

MATERIAL SPECIFICATIONS

- 304 stainless steel sink
- 18 gauge 304 stainless steel sink frame
- Faucet: brass with zinc plating
- Soap dispenser: zinc plated

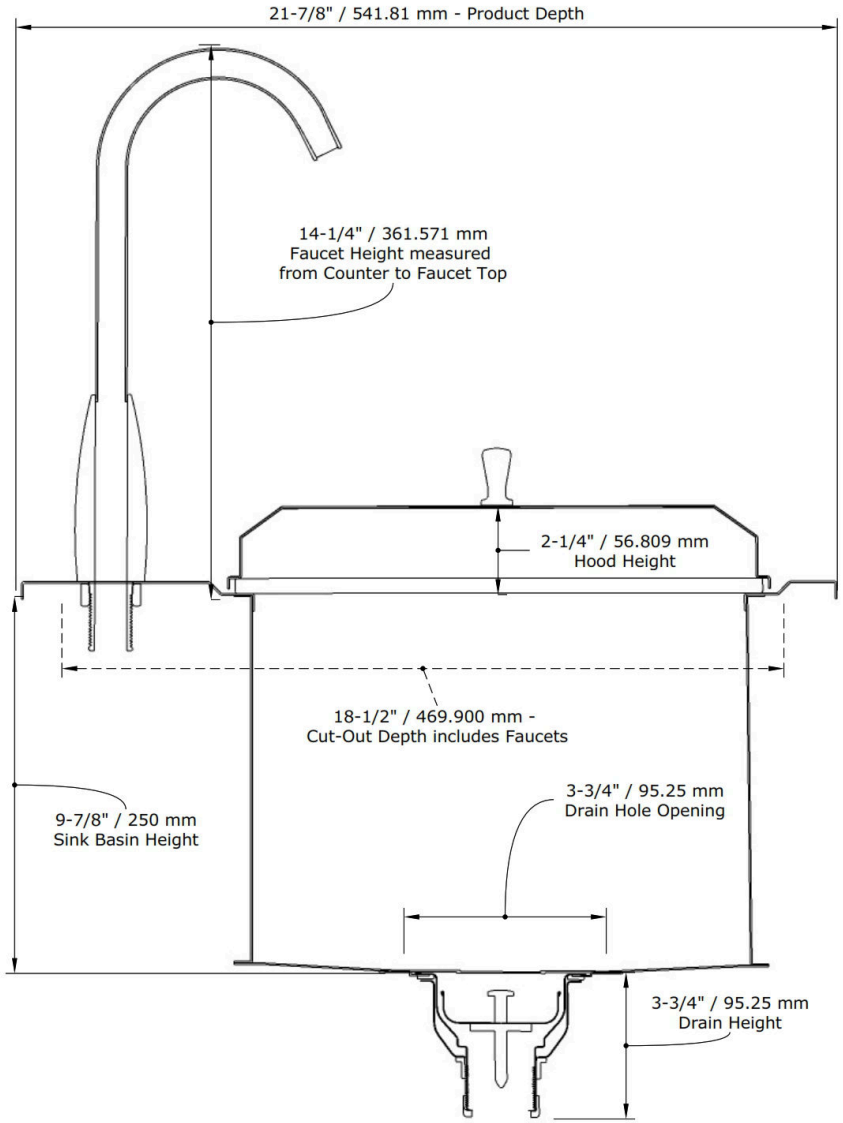

WARRANTY

Exterior Finish	**3 Years**
Structure	**3 Years**
Handle, Faucet	**1 Year**
Drain, Dispenser	**1 Year**

IMPORTANT!

Dimensions shown are Near Exact, based on engineered drawings actual product may be slightly different. Other dimensions shown on Specification sheet and Websites are rounded to the Nearest Whole Number to make it easier for our customers. If your still unsure, we recommend having the product on-site before the final Cut-Out is performed.
