Grill & Burner Jacket Size Guide

Sunstone universal jackets come in many sizes that accept a wide variety of grills and burners from many brands. Pick the jacket by your appliance's cut-out size, and combine grill and burner jackets side by side when you want several appliances in one island cut-out.

UNIVERSAL APPLIANCE JACKETS

	Item No.	Jacket	Max appliance cut-out (W × H × D)	Sunstone models	Use
	**SUNJK18**	18" Universal Appliance Jacket	12" × 12" × 22"	SUN13CPRO, SUN13VDB	Side and double burners
	**SUNJK20**	20" Universal Appliance Jacket	14" × 12" × 22"	Not listed	Power burners
	**SUNJK25**	25" Universal Appliance Jacket	19" × 12" × 22"	Not listed	Power burners
	**SUNJK29**	29" Universal Appliance Jacket	23" × 12" × 22"	SUN24PCB	Power burners; installs high or low
	**SUNJK33**	33" Universal Appliance Jacket	26" × 12" × 22"	RUBY3B, SUNCHSZ30IR	Gas and hybrid grills
	**SUNJK40**	40" Universal Appliance Jacket	34" × 12" × 22"	RUBY4B, RUBY4BIR	Gas and hybrid grills
	**SUNJK45**	45" Universal Appliance Jacket	39" × 12" × 22"	RUBY5BIR, EMCHDZ42	Gas and hybrid grills
	**SUNJKDIV6**	6" Jacket Divider	Not applicable	All universal jackets	Joins jackets side by side in one island cut-out

HOW TO MEASURE

1. Find the cut-out width, height and depth in your appliance's installation guide.
2. Pick the smallest jacket whose maximum cut-out is equal to or larger than all three.
3. Not sure? Send us the model number and we'll check it with you.

COMBINE JACKETS

Grill and burner jackets can be configured together into multi-configurable packages: jackets sit flush side by side in one island cut-out, joined with the 6" divider (SUNJKDIV6). For example, a grill in a SUNJK40 next to a power burner in a SUNJK20.
